

BERN **AIRPORT**

Schedule of Fees & Charges

Flughafen Bern AG

Schedule of Fees & Charges for Bern Airport as of July 1st, 2014

All prices are quoted in Swiss Francs (CHF)

1. GENERAL PROVISIONS**1.1. Legal basis**

The legal basis underlying this Schedule of Fees & Charges is Chapter 3, Airport Charges, in the Federal Ordinance on Aviation Infrastructure (748.131.1 VIL) of November 23, 1994 (as issued on March 15, 2008) and Article 9 of the Concession for the Operation of Bern Airport.

1.2. Scope

This Schedule of Fees & Charges applies to the usage of Bern Airport.

1.3. Airport charges

The following airport charges apply:

- landing charges and approach safety charges (dependent on the mass of the aircraft)
- landing charges (noise-dependent)
- landing charges (emissions-dependent)
- passenger charges
- parking charges / hangar parking charges
- freight charges
- fuel charges
- ground handling charges
- charges for individual services

As specified in Article 39 of the Federal Act on Aviation (748.0 LFG) of June 18, 1993, the airport charges are overseen by the Federal Office of Civil Aviation. They are published in the Aeronautical Information Publication (AIP) for Switzerland (with the exception of ground handling charges).

1.4. Remuneration for special services

The airport operator may issue invoices for special services independently of the airport charges.

1.5. Other information

The Approach Safety Charge (AFS) is levied together with the airport charges.

1.6. Liable party

The aircraft operator is liable for airport charges. Should the operator not be known, the owner of the aircraft shall count as the operator, unless he or she provides documentary evidence that the liability rests with another party.

The fuel companies authorised to operate on the airport site are liable for fuel charges.

1.7. Due date for charges

Charges are to be paid, at the latest, immediately before the aircraft takes off. The airport operator may demand payment at any time. The airport operator may open an on-going account for regular users of the airport. The airport operator reserves the right to impose special conditions.

1.8. Currency

All charges are stated in Swiss Francs (CHF) exclusive of Value Added Tax.

1.9. Collection

The airport operator may delegate the collection of charges to an organisation which it appoints.

1.10. Flat rate

The airport operator may, subject to agreement with the affected parties, levy charges in the form of a flat rate for specific groups of users and/or types of usage (e.g. long-term rental agreements for parking positions).

2. LANDING CHARGES AND APPROACH SAFETY CHARGE

(dependent on the mass of the aircraft)

2.1. Liability for charge

A fee is to be paid for every approach with subsequent landing, dependent on the mass of the aircraft. The same charge applies for every "touch and go" and for every "go around".

2.2. Basis of calculation

Charges dependent on the aircraft mass are calculated on the basis of the Maximum Take-Off Weight (MTOW) as specified in the airworthiness certificate, the aircraft operating manual or an equivalent document.

2.3. Rates

The rates for charges levied by Bern-Belp airport may be found in Appendix 1.

2.4. Helicopters

The same rates shall apply to helicopters.

2.5. Special cases

The management may apply a reduced charge for the following flights:

- technical test flights
- flights by pilots and flight training schools which have attended Flughafen Bern AG training courses and observe the noise-related regulations issued by Flughafen Bern AG
- training and test flights conducted under the supervision of flight instructors or expert examiners who have attended Flughafen Bern AG training courses
- activities for the promotion of air safety

3. LANDING CHARGES (NOISE-DEPENDENT)

3.1. Liability for charge

A fee is to be paid for every approach with subsequent landing, dependent on the noise emission class of the individual aircraft. The same charge applies for every “touch and go” and for every “go around”.

3.2. New or modified aircraft

If an aircraft is re-classified by the operator into a cheaper noise emission class, the aircraft operator is required to provide appropriate documentary evidence of the eligibility for the new class within 60 days of re-classification. Noise charges paid for this period will be reimbursed to the full amount of the difference, as long as the documentary evidence is provided within this time.

3.3. Assignment to noise emission classes

The noise-dependent landing charge depends on the assignment of the aircraft to one of the classes A to D for propeller aircraft and I to V for jet aircraft. For aircraft registered in Switzerland, the aircraft registry is the definitive source of information. International aircraft are assigned to the appropriate charge class for reference aircraft types (list issued by the Federal Office of Civil Aviation).

3.4. Rates for propeller aircraft up to 8,618kg MTOW

The noise charge per whole tonne MTOW or part thereof is:

for class A CHF	10.00
for class B CHF	6.00
for class C CHF	3.00
for class D CHF	free of charge

3.5. Helicopters and propeller aircraft exceeding 8,618kg MTOW

For helicopters and for propeller aircraft exceeding 8,618kg MTOW, no noise-dependent landing charge shall be levied until an official noise classification model is available.

3.6. Rates for jet aircraft

Class I	CHF 1,000.00
Class II	CHF 600.00
Class III	CHF 400.00
Class IV	CHF 200.00
Class V	free of charge

4. LANDING CHARGES (EMISSIONS-DEPENDENT)

4.1. Liability for charge

A fee is to be paid for every approach with subsequent landing, dependent on the emissions factor of the individual aircraft engines. The same charge applies for every “touch and go” and for every “go around”.

4.2. Assignment to emission classes

Aircraft engines are assigned to five emission classes according to their emissions factor. Classification proceeds according to lists issued by the Federal Office of Civil Aviation:

- For jet engines:
Emission Class Jet Engines
- For turboprop and piston engines and for helicopter engines:
Emission Class Turboprop, Helicopter and Piston Engines

4.3. Surcharge level

Class 1	40% surcharge
Class 2	20% surcharge
Class 3	10% surcharge
Class 4	5% surcharge
Class 5	no surcharge

5. PASSENGER CHARGES

5.1. Liability for charge

A fee is to be paid for every passenger departing on board an aircraft, other than in the exceptional cases listed (see point 5.3).

5.2. Rates

The passenger charge, per departing passenger, is:

CHF 10.00	For passengers in international private and business aviation
CHF 10.00	For passengers in domestic business aviation
CHF 35.00	For passengers in scheduled airline services and charter services (incl. security and noise component of CHF 19.50)

5.3. Exemption from charge

Exemptions from this charge are in place for:

- transit passengers
- passengers in non-commercial, domestic private aviation
- children up to 2 years of age
- passengers on scenic flights

6. PARKING CHARGES

6.1. Liability for charge

After an initial parking period which is free of charge, a fee is levied for the parking of an aircraft in the open air.

6.2. Basis of calculation

The fee is calculated on the basis of the duration and location of parking. A partial hour is considered a full hour; a partial day is considered a full day. One day consists of a 24-hour period from the beginning of the chargeable period. A parking position is defined by the signage at the specific location.

6.3. Allocation of parking positions

The airport operator determines the position at which an aircraft may be parked. The airport operator may also determine a maximum parking period.

6.4. Rates

6.4.1. Hangar charges

(information on availability of hangar spaces provided on request)

Long-term tenants: on request

Minimum term of contract: 6 months

Visitors: The fee for short-term hangaring is calculated as follows:
aircraft length x wingspan x CHF 1.00 = price per day and position

6.4.2. Sealed-surface outside positions

The first 2 hours of parking are free of charge. At the end of this period, the charge for parking on the sealed surface areas is as follows:

CHF 30.00	aircraft up to MTOW 1999 kg, per day and position
CHF 50.00	aircraft between MTOW 2000 kg and 5699 kg, per day and position
CHF 100.00	aircraft between MTOW 5700 kg and 9999 kg, per day and position
CHF 200.00	aircraft between MTOW 10000 kg and 24999 kg, per day and position
CHF 300.00	aircraft with MTOW from 25000 kg, per day and position

Apron parking contracts are available on request.

6.4.3. Grass parking positions

The first 2 hours of parking are free of charge. At the end of this free period, the charge per day and position is CHF 15.00.

Long-term tenants: on request

Minimum term of contract: 6 months

7. EXTENSION TO OPERATING HOURS

7.1. Liability for charge

The airport management may, upon receipt of an appropriate application, allow flights outside of the operating hours.

The provision of necessary facilities and personnel outside of regular operating hours is subject to a surcharge, independent of all other charges.

7.2. Rates

CHF 50.00	Flat-rate for processing an application
CHF 300.00	Surcharge per 1/4 hour or part thereof

8. FREIGHT CHARGES

8.1. Liability for charge

A fee is levied for import and transit freight that is unloaded.

8.2. Rates

The charge is calculated as CHF 0.15 per kilogram.

9. FUEL CHARGES

9.1. Liability for charge

A charge is levied for the pumping of fuel for aircraft, based on the quantity pumped.

9.2. Rates

The basic rate is CHF 0.10 per litre of fuel pumped. A progressive rebate on the basic rate is available, depending on the annual quantity of fuel pumped. The basis for this is provided in the bonus table below (subject to change).

fuel quantity per year		bonus per litre	
15,000 litres	to	40,000 litres	1.0 centime
40,001 litres	to	80,000 litres	1.5 centimes
80,001 litres	to	110,000 litres	2.0 centimes
110,001 litres	to	200,000 litres	2.5 centimes
200,001 litres	to	400,000 litres	3.0 centimes
400,001 litres	to	500,000 litres	4.0 centimes
500,001 litres	to	800,000 litres	5.0 centimes
from 800,001 litres			subject to agreement

The refund application, accompanied by the relevant receipts and documentation, must be received no later than April 30 in the following year. Applications are to be lodged with Flughafen Bern AG, Treibstoffrückerstattungen, Flughafen Bern, CH 3123 Belp. Late applications cannot be accepted.

10. GROUND HANDLING CHARGES

10.1. Liability for charge

The provision of aircraft ground handling services by the airport operator or a company authorised by the airport operator is subject to a charge to be based either on the basic rate or a special agreement made with the relevant airport user. For safety reasons, ground handling is mandatory for scheduled, charter, taxi and non-commercial passenger flights, whenever

- the aircraft MTOW exceeds 3,500 kg and / or
- the arrival / departure is from / to a Non-Schengen-Destination.

10.2. Rates

The prices for the provision of aircraft ground handling services at Bern Airport are listed in Chapter 11.

11. CHARGES

11.1. Individual services

GPU	up to 15 minutes	CHF 80.00
	up to 30 minutes	CHF 160.00
	up to 1 hour	CHF 200.00
	up to 1½ hours	CHF 300.00
	up to 2 hours	CHF 400.00
Cleaning (min. CHF 90.00)	per person and hour	CHF 90.00
Toilet service		CHF 150.00
Water service		CHF 110.00
Aircraft heating	per 15 minutes	CHF 40.00
Aircraft towing	up to MTOW 15000 kg, per direction	CHF 90.00
	MTOW exceeding 15000 kg, per direction	CHF 150.00
Work rate	per hour	CHF 90.00
Work rate (supervisor)	per hour	CHF 110.00
Tarmac Access		CHF 200.00
Catering	upon request from Ground Services	
De-fueling	base rate	CHF 200.00
	plus (per litre)	CHF 0.30

11.2. Handling charges

(the basic configuration of the aircraft shall apply)

Standard handling

includes:

- 2 hrs parking
- Passenger ramp assistance
- Baggage handling and loading
- Customs and immigration assistance
- Crew ramp assistance
- 3rd-party liaison
- Operational ground assistance
- Operational messages
- Notams/Meteo
- Marshalling/chocks
- Standard cabin cleaning
- Crew lounge

Standard handling for aircraft up to 14 seats

Type	1.1	up to	10	tonnes incl. helicopter	CHF 320.00
Type	2.1	from	10.1	up to 15 tonnes	CHF 480.00
Type	3.1	from	15.1	up to 24 tonnes	CHF 660.00
Type	4.1			above 24 tonnes	CHF 830.00

Standard handling for aircraft from 15 seats (basis: standard configuration of aircraft type)

Type	1.0	up to	22 seats		CHF 564.00
Type	2.0	from	23	up to 35 seats	CHF 820.00
Type	3.0	from	36	up to 55 seats	CHF 1,060.00
Type	4.0	from	56	up to 70 seats	CHF 1,240.00
Type	5.0	from	71	up to 85 seats	CHF 1,470.00
Type	6.0	from	86	up to 100 seats	CHF 1,650.00
Type	7.0			from 100 seats	CHF 1,890.00

Light handling

includes:

- 2 hrs parking
- Passenger ramp transportation
- Baggage transportation
- Marshalling

Light handling for aircraft up to 14 seats (only for General Aviation)

Type	1.2	from	3.5	up to 6	tonnes	CHF 140.00
Type	2.2	from	6.1	up to 10	tonnes	CHF 220.00
Type	3.2	from	10.1	up to 15	tonnes	CHF 350.00
Type	4.2	from	15.1	up to 24	tonnes	CHF 500.00
Type	5.2			from 24	tonnes	CHF 600.00

11.3. Aircraft de-icing

Aircraft de-icing is organised on the basis of an “aircraft de-/anti-icing request” form, available in the General Aviation Centre (GAC). The currently applicable rates are listed on the form or at the handling agents station control office.

12. EXEMPTION FROM CHARGES

12.1. General

Exemptions are available for the weight-based, noise-based and emission-based landing charges as well as for passenger and parking charges, subject to the following conditions.

12.2. Basis for exemptions

No charges are payable in the following situations:

the aircraft is the property of the Swiss Confederation

the aircraft is being operated in the service of the Federal Office of Civil Aviation or the Aircraft Accident Investigation Bureau.

search and police flights

international state aircraft transporting the relevant head of state or members of government for an official state visit

special occasions, at the discretion of the airport operator

12.3. Documentation requirements

Should an exemption be claimed, all documentation necessary to assess the claim must be provided to the airport operator upon request within 60 days.

13. RESTRICTIONS FOR JET AIRCRAFT

Extract from AIP - LSZB AD 2-10 from May 8, 2008:

The following aircraft types are only permitted to land with the special approval of the airport management (such approval, where appropriate, is normally only issued for workdays between 8:00am and 12:15pm and between 1:45pm and 6:30pm, local time).

- AC-1121 Jet Commander
- Boeing B-727
- Fokker F-28
- Gulfstream II / III
- HS-125 non-turbofan
- Ilyushin IL-62
- MDC DC-9
- NA-265 Sabreliner 40 / 60
- SE-210 Caravelle
- Yakovlev Yak-40 / 42
- BAC 1-11
- Falcon Series-20 (CF-700)
- Gate Lear Jet Series 20
- HFB-320 Hansa Jet
- IAI-1123 Westwind 1
- Lockheed 1329 Jetstar Mk. ½
- Morane MS-760 Paris
- Piaggio PD-808 Vespa Jet
- Tupolev TU-134 / 154
- civilian registration military jet-powered warplanes and training aircraft

This restriction also applies to approach without subsequent landing. Justified applications for the issuance of special approval must be received by the airport management no later than 24 hours before commencement of the flight under consideration.

14. VALIDITY

This Schedule of Fees & Charges comes into effect on Juli 1st, 2014.
